RESEARCH EXPERIENCE

Human Dimensions Specialist, October 2014-August 2018

North Carolina Wildlife Resources Commission (WRC)

Charged with designing and administering all human dimensions research involving humans and wildlife in the state; Example projects include a mixed-method study of 5-county citizen perspectives about red wolves and coyotes and a county-level study of hunters' decision-making about altered deer seasons; Provide social science expertise for WRC leadership; Serve as technical expert on NCSU graduate

student-WRC projects, as well as for USFWS, SECAS, and AFWA projects; Collaborate with NCSU Fish and Wildlife faculty on service-learning projects for undergraduates; Supervise field research assistants.

Research Assistant, January 2014-August 2014

North Carolina State University

Assisted on USDA Conservation Innovation Grant to develop an ecosystem exchange system framework for species mitigation with an emphasis on market-based conservation in North Carolina.

PI, May 2013-August 2013

Led fieldwork at three sites in Los Rios, Chile on the local effects of large-scale private protected areas.

Directed team of (2) field research assistants and (5) transcribers

Co-PI, August 2012-May 2013

Conducted Tamango National Reserve visitor study for Chilean forest service. Collaborated with resident researcher at El Centro de Investigación en Ecosistemas de la Patagonia in Aysén (Region XI)

USDA National Needs Fellow, August 2012-August 2013

North Carolina State University

Led data collection and analysis for woody biomass harvesting guidelines study, collecting the perspectives of over 2000 forest professionals and landowners in the southeast U.S.

Co-PI, IMAGINE Research Abroad Program, South Africa, May 2012-June 2012

North Carolina State University

Co-led team of students and faculty from U.S. and South Africa to collect data on perceptions of traditional and formal water governance in HaMakuya, South Africa

Research Assistant, January 2012-August 2012

North Carolina State University

Assisted with: preparation and roll out of a NSF and Joint Fire Science Program project on relational risk assessment and management; USFS post-fire research framework and protocol development; data collection for the Regional Readiness Cooperative prescribed fire project to restore over 5 million acres of longleaf pine forests; data collector for North Carolina environmental education plan survey

Research Assistant, August 2009-May 2011

North Carolina State University, Parks, Recreation, and Tourism Management

Assisted with System for Observing Play and Leisure Activity in Youth (SOPLAY) and the National Hockey League's Hockey is for Everyone programs. Duties included data entry and focus group transcribing. Also charged with data collection for middle school joint-use study

Graduate Assistant/Technical Consultant, August 2009-May 2010

North Carolina State University, Parks, Recreation, and Tourism Management

Served as the database consultant for 50 states participating in a state park director's annual information exchange funded by the National Association of State Park Directors; prepared and distributed the 2010 annual report
